

Overview

Today's debt capital markets are more varied and complex than ever before. Whether you're acting as an issuer, arranger, underwriter, dealer or lead manager, fund or investment manager, servicer, trustee or agent, you need a team that you can rely on. We have advised on more capital markets transactions in the last 10 years than any other Kenyan law firm. Transactions range from bonds, IPOs and rights issues to capital base restructuring exercises and take-overs, as well as the structuring, sale and marketing of capital markets products and the handling of capital markets disputes. Come to Dentons Hamilton Harrison & Mathews for sophisticated advice at every stage of the process.

Representative Experience

- **Nairobi Securities Exchange (NSE):** Advised the client on its demutualisation and listing on the Nairobi Securities Exchange (NSE) - the second demutualisation of a securities exchange in Africa after South Africa's JSE.
- **Confidential client:** Advised the client, an exclusive distributor of several International car brands on the take-over and de-listing of the company from the Nairobi Securities Exchange.
- **Confidential client:** Advised an international provider of financial services technology and outsourcing services listed in the New York Stock Exchange on its internal restructuring of its Kenyan subsidiary following its billion dollar acquisition of an American multinational company.
- **Access Kenya:** Advised on the take-over and de-listing of the company from the NSE.
